

## COURSE OBJECTIVES

CHI 1131 is the sequel to CHI 1130 and is designed for students studying modern Chinese (Mandarin) as a second or “acquired” language. Students will build up their vocabulary and become familiar with basic sentence structures. In addition, students will develop their skills in listening, speaking, reading, and writing the language. Students are expected to carry out real life communication at an elementary level upon completion of this course. Culture embedded in the language will also be introduced. To be more specific, students will attain approximately the Novice-High level on the ACTFL/ETS proficiency scale after completing this course:

**Listening:** Able to understand short, learned utterances and some sentence-length utterances, particularly where context strongly supports understanding and speech is clearly audible. May require repetition, rephrasing and/or a slowed rate of speech for comprehension.

**Speaking:** Able to satisfy partially the requirements of basic communicative exchanges by relying heavily on learned utterances but occasionally expanding these through simple recombination of their elements. Can ask questions or make statements involving learned material.

**Reading:** Where vocabulary has been learned, can read for instructional and directional purposes standardized messages, phrases or expressions, such as some items on menu, schedules, timetables, maps, and signs.

**Writing:** Able to write simple fixed expressions and limited memorized material and some recombinations thereof. Can supply information on simple forms and documents.
