The workbook "Zeszyt Ćwiczeń 1" supplements the series for the learning Polish as a foreign language *Polski, Krok po kroku*, being an extremely useful tool for both the teacher and the students. Each of 26 units of the book, includes numerous activities, carefully and thoughtfully selected, and which main purpose is to facilitate communication in Polish language. The comparison between exercises of different levels is also quite useful, giving to the teacher the opportunity to adapt his teaching method to the individual needs of each student. The most ambitious students have at their disposal complementary activities, in order to widen their lexical knowledge, or individual activities of higher level, enabling them to continue to practice and learn the language.

"Polski, krok po kroku" is, currently, the most modern and universal publication at the market. It is written only in Polish in order to immerse students in the new language from the very first class and mobilise them to use it. It is an excellent solution for international groups and individual classes. It may be successfully used at intensive courses and semester courses conducted at universities. Its advantages encompass clear grammar tables, intuitive explanation of grammar issues via dialogues, wealth of lexicon, good quality and naturally sounding recordings, as well as very attractive graphic layout designed not only to decorate, but also to create new opportunities for speaking. Communication is the superior, consistently implemented objective throughout the book in all its activities. Grammar issues are incorporated into the communication context, automating exercises often have the form of a dialogue, whereas conversations and texts sound very natural. Students will also value the plot of the book: it presents the adventures of four characters who came to Cracow for a language course and unique holidays. Here, they get to know the city, deal with various issues, cook and fall in love...

Class Participation: A big part of learning any foreign language is its spoken usage. A language does not exist in a vacuum. Even considering the environment of the virtual classroom it is important to participate in a live session where problems may be solved and mistakes corrected. To that end, 5% of your final grade in Polish 1130 will be determined by your participation in a weekly “virtual” meetings.

Quizzes and Homework: Each module will have a spelling quiz, homework assessments and a spelling quiz. Homework are assigned to help you practice before having to take the quizzes. Therefore, I encourage you to work on them independently and only after studying material in a module. It will be better not to use the answers at the end of the book until you had a chance to complete the homework on your own.

Reading and Writing Weekly Assignments: This assignments are not part of your book and are only thematically related to what is included in a module. This group of assignments is designed to help you practice a different set of skills that are also important in developing language proficiency.

Discussion Board: There are only four modules 1, 5, 9 and 13 that require of you to make the post. In modules 5, 9 and 13 you will use Voice Tread.

Exams: There will be 3 tests over the most recently reviewed material during the semester. You need to be register with ProctorU to take the exams. Use the Syllabus Quiz as an opportunity to practice of completing the assessments with the use of the online proctoring service.

Final Exam: The final exam will be cumulative; covering everything we will have studied by then.

Absence Policy: Whether excused or unexcused, after 5 absences (other than that one allowed) your final grade will be docked 5%. After 10 absences you will be given a failing grade for the class. No excuses, no exceptions. In a language class, it is vital that you are present and participate in class. If you already know that you will have to miss 10 classes this semester I highly recommend that you take a different class. (Of course, this policy will be amended to accommodate religious holidays. Please speak with me if this concerns you.)

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at:

A note on any language learning: Most of the learning you will do will actually be accomplished on your own.
